MSPB (MSPBOTS logo)

Are These Issues Keeping You Up at Night?

Missed Opportunities: Without TBRs, clients may not see your value, leading to trust issues and churn.

Inefficient Workflows: Manually compiling TBRs wastes valuable time and resources.

Inconsistent Reporting: Delayed or missed reports damage your professionalism.

Missed Revenue: Without actionable insights, upselling and cross-selling opportunities slip through the cracks.
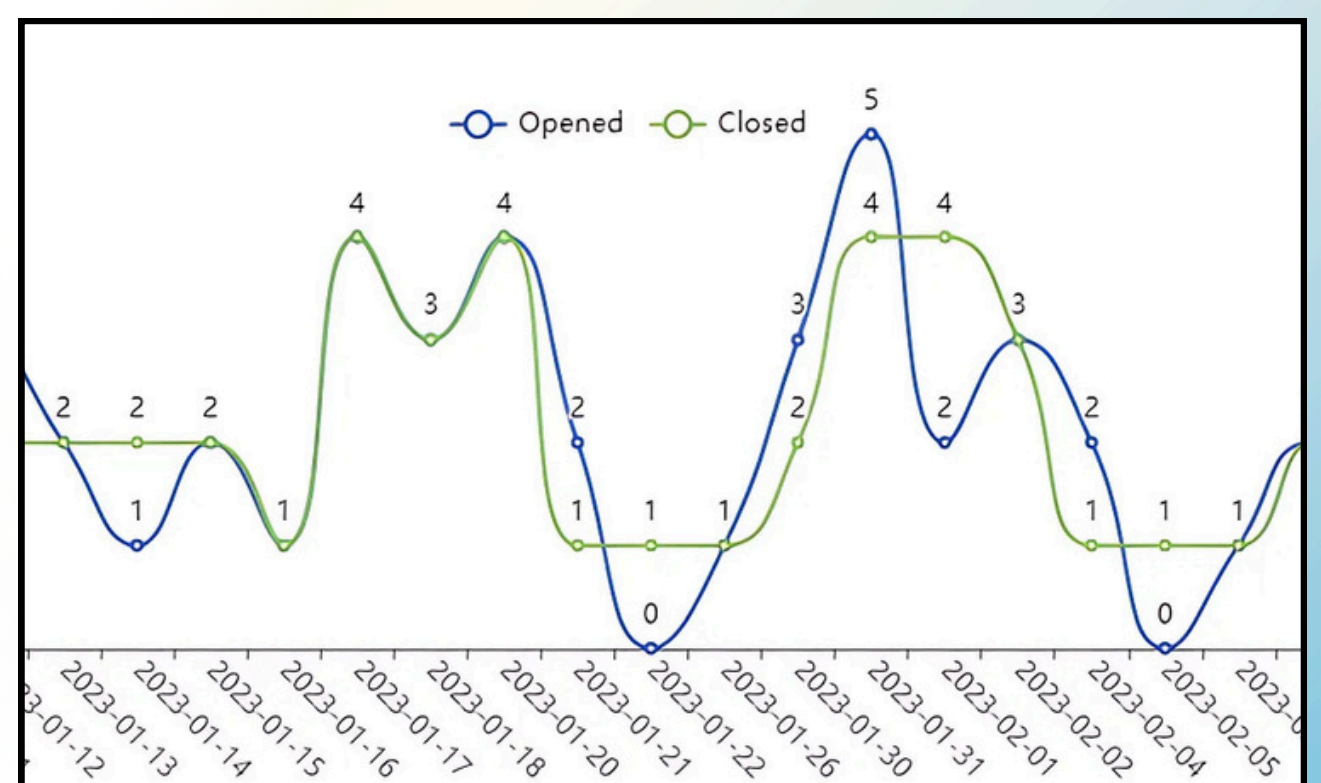

**Client Neglect:** Lack of regular communication makes clients feel ignored and disengaged.

Scaling Headaches: As your MSP grows, managing manual reports becomes unsustainable.

With MSPbots TBR Automation, You Will:

- **Save hours of manual work.**
- **Increase client satisfaction and retention.**
- **Unlock upsell and cross-sell opportunities.**
- **Scale effortlessly with automation.**

9 Ways MSPbots Transforms Your TBRs

1. Automated Report Generation

Stop wasting hours pulling data from PSA, RMM, and accounting tools. MSPbots automatically compiles and formats the data for you.

2. Scheduled Delivery

Ensure reports go out on time, every time, with automated scheduling—monthly, quarterly, or whenever you need.

3. Customizable Templates

Tailor TBRs to client-specific metrics, ensuring every report is relevant and impactful.

4. Client Mapping and Automated Contact Lists (Exclusive)

Effortlessly map reports to the right clients and contacts without manual intervention.

5. Proactive Alerts and Insights

Automatically flag risks, such as aging hardware or missed SLAs, and provide actionable recommendations

6. Historical Trends and Benchmarking

Showcase long-term progress and compare client performance to industry standards.

7. Branded Professional Reports

Add your logo and messaging to every report to reinforce your professionalism and brand.

8. Real-Time Client Portal

Give clients 24/7 access to their data and reports, enhancing transparency and trust.

9. Seamless Scalability

Generate and manage reports for all your clients, no matter how many, without increasing your workload.
